46 Anderson Street,  
Geraldton WA 6530

Ph (08) 9921 5099  
Fax: (08) 9921 2596

**Ugle Pty Ltd** is a family owned, family run business incorporating Batavia Blast Works and Ugle Fabrications. **Stan Ugle** has an extensive background in the engineering industry throughout the Midwest region in light and heavy fabrication, mechanical fitting, project management and has used his knowledge and experience to for the development and growth of his business. Stan's wife, **Barbara Ugle**, has managed accountancy for various companies across WA and brings her wealth of knowledge to her role as the Accounts and Administration Manager.

Ugle Pty Ltd is an entity with two separate businesses in Batavia Blast Works and Ugle Fabrications with both being run under the directorship of Stan and Barbara.

## Vision

Our aim is to provide an efficient safe service to our clients and the community. Servicing clients across the Midwest and throughout the state with our knowledge across a broad horizon of sectors and readily available labour hire.

## Ethos

Ugle Pty Ltd is a company committed to equal opportunities for employment, and believe the people we employ are our most valued assets.

Our customers, both domestic and commercial, deserve a quality service and product which represents value for their dollar and this is what we aim to achieve.

## Safety

Both Batavia Blast Works and Ugle Fabrications have developed safety policies and management plans to ensure the safety and well-being of their employees and clients alike. All employees working on client sites are inducted as required and follow safety regimes.

Ugle Fabrications workshop

Batavia Blast Works has been applying industrial painting applications in the Midwest region for over thirty years. Since purchasing the company in 2011, Directors Stan and Barbara Ugle have successfully developed the commercial sector of the business, forming key relationships with industrial stakeholders across the state. With more than a one hundred year's combined experience within the personnel and management sector of the company, the future direction is to ensure growth in the commercial sector continues, and the client's needs are met.

**Batavia Blast Works** handle all commercial requirements from the mining, marine, oil and gas, agricultural, industrial and construction sectors across the Midwest and throughout the state.

- Abrasive blasting and protective coatings
- Ultra-High Pressure Water Blasting
- Maintenance programming
- Labour hire

Batavia Blast Works provide fully equipped mobile units that can travel onsite to the client when required. All our mobile units are:

- ISN accredited (Oil and Gas coating)
- Fully mined specked
- Able to travel anywhere in the state
- Handled by an experienced team of blasters and spray painters
- NACE accredited inspections if required
- Provide all QA Documentation
